

It was the late 70s when the first «windsurfers» have appeared on the coasts of Achaia. Today windsurfing in the region has gained numerous friends mainly because of very good conditions. The strength of the winds and the long period of sunshine, making many of the beaches of Achaia ideal for windsurfers.

Great interest appears to the EOT plaz when prevailing winds are north or northeast and on the beach of Drepano when prevailing the western and northwestern winds.

For experienced windsurfers appropriate beach is the “Mavri Myti” in Araxos territory (with strong eastern winds) and the beach of Alyki in Aigio (with wesren and southwestern winds).
