

The snow which "freezes" the shoulders of Chelmos is the ticket for skiers ... to surrender to the joys of balancing on the ice. Achaia visitors can feel free take with them their ski equipment. They are sure to find a way to use them on ski tracks that are the best and safest in Greece.

KALAVRYTA SKI CENTER

Kalavryta ski center at position Xirokambos was found in 1988 and it is located 14 km from the city of Kalavryta. The mountain site has seized its advantage which is the snow and the beautiful mountains of Chelmos covered by fir. The operation of the Ski Centre reversed the decline of the area and launched a rising path. Thus Kalavrita has developed into a tourist center with many hotels, recreational stores (cafes, tavernas, bars) and thousands of visitors each year.
