

In Patras paragliding club, there are organised seminars about meteorology, wind route, first aid, rescuing and for this reason, there are invited Greek and foreign experts, so that members fly with full knowledge of the issue and in great safety. It also invites and cooperates with air sports clubs from abroad so that skilled foreign pilots educate its members and provide them with their experience.

In the meantime its members participate with shows in events held by the Region of Western Greece, The Local Government of Achaia and other regional municipalities. The Club also collaborates with Municipalities for the protection of environment, offering in this way social work.

The Omplos Mount, the Panachaikon Mount, Skiadas Village, Santomeri Village and Kalavryta Town host meetings, Cup and Championship Games so, in this way, they attract athletes from all over the country and give an opportunity for emulation and celebration. Additionally, the Club athletes who come from Patras are recognised in the field as notable pilots and good friends, by continuously taking part in national games and winning prizes.
